Brent,

I am confused by the attachment. The dates are for May 2017. Also the calculated cost on page 4 don't match with the terms. Plus it only shows 1 phone line. The email with the actual contract to sign has the current 2 phone lines, but does not break the 2 phone lines out of the monthly costs for internet and static IP address.

I hate to keep bugging you, but could you please correct and return.

I really appreciate all your work in a very short time.

Thanks

Tim

Hi Tim

I found the current account. It looks like it is about to expire and get a rate increase anyway. (attached)

Just \$60 more per month will upgrade you to GIG/20 speed on a new 3 year deal. Give me the green light and I can send the e-agree for review and click and e-sign.

Is this account under e-rate right now? My understanding is we would have to get this in place but not execute the new agree until July correct?

Call me on it tomorrow....

Brent

I spoke to you yesterday about continuing service to Newton Christian School. I realize it was a tight deadline for us to reach out and solicate proposals after our 28 day window closed. We really need the information to complete our application for e-rate funding.

Thanks for your help in getting the proposal to continue being our service provider

Tim Schroeder
